

ROUNDHOUSE RISING

MUSIC TECHNOLOGY WORKSHOPS, TALKS & DEMOS SATURDAY 22 FEBRUARY

App Jam Workshop

Workshop | 12-2pm | The Clore

Want to be in an App band? Jam with a range of tablet music apps & controllers, get inspired and develop ideas to make a piece as a group and perform it in just 2 hours! No app experience required! Some kit will be provided or bring your own tablet/smart phone. Download the app in advance, or arrive early to sign up and get prepared! Please note there is a limited capacity for this workshop. [See below for full details about the workshop and which apps to download.](#)

Marek Bereza - Making Computers Sing & Dance

Talk & Demo | 2.30-3pm | The Clore

Marek Bereza introduces his interactive audio-visual and other music-related computer/robotic projects.

Tim Exile – Masterclass

3pm – 3.45pm | Hub

Producer Tim Exile will show you how he puts together his live sets. In his own words: "I use my set-up for sound-surfing. I can grab whatever sound is going on in the moment and arrange and process it, taking incoming sounds on a mic or using the various synths, samplers and drum machines which are integrated into it. I can improvise an entire live set with it."

Live Coding: Live Music From Code

Talk & Demo | 3.15-3.45pm | The Clore

Making music from code, live! Alex McLean introduces his live coding projects and collaborations, and explains how to get people to dance to simple algorithms.

Circuit Bending & Sound-Toy Hacking

Talk & demo | 4-4.45pm | The Clore

Sound explorers! Tasos Stamou will introduce you to circuit bending, sound-toy hacking and electronic instrument design, demonstrating his hacked toy instruments and how they are made.

Interactive music and new listening frontiers

Talk & Demo | 5-6pm | The Clore

Interactive music apps like Ninja Jamm and Bronze Format allow audiences to listen in new ways, remix and co-create music with artists – what are the opportunities and challenges for music artists? Find out about these exciting disruptive technologies with Jean-Baptiste Thiebaut (Chair), Gwilym Gold, Lexxx, Matt Black (Ninja Tune) and Dr Mick Grierson (Goldsmiths Uni).

Roundhouse Rising App Jam Workshop – Full Details

Are you into music making apps on your phone? Or do you prefer to jam out with friends?

Well at the *Roundhouse Rising App Jam Workshop*, we're going to attempt the unprecedented feat of combining the two.

Simply download any of the listed free apps below, bring along your smartphone, iPad, or tablet device, and in two hours we'll do our best to assemble a digital orchestra for the 21st century. At the end of the session we'll make a recording to be turned into a podcast. You don't need any previous musical or technical knowledge to participate but if you are musically minded then we could certainly use your help.

There might be music, there might be chaos, there will be noise!
